## Letters from Camp.

(Continued from page one)

Camp Ferris, Grayling, July 10.—After a wait of two weeks, the Thirty-First regiment early Saturday morning left here for El Paso, Tex. The regiment of 1,382 men left in four sections. The trains run one-half an hour apart.

News that papers in Detroit and Grand Rapids violated the censorship by publishing the story of the troop movement before 24 hours after the departure, as was agreed upon by the newspapers and their representatives, aroused widespread indignation among brigade and federal officers in camp. The newspapermen were told, at a meeting called Saturday night immediately upon receipt of this news by Adjutant-General Smith, that any further violation will mean the expulsion of the correspondent from camp, whether he is responsible for the offense or not. It was pointed out that the reasons for the censorship was to protect troops from enemies of the government and since a large proportion of the section men south of Kansas City were Mexican both in blood and sympathies, the orders must be enforced for the safety of the guardsmen.

Each guardsman was provisioned with ten days' rations, for the trip. Captain Charles Kelly has charge of the first train which conveyed beside his company, the infantry, headquarters company and machine gun company. Colonel Walter Barlow has charge of the second section, comprising the first battalion. Lieutenant-Colonel A. C. Pack was in command of the third section, carrying the second battalion. The third battalion was in charge of Major V. M. Dumas. There were fifteen cars to each train.

Announcement that Major Ernest C. Lee, regimental surgeon, will accompany the Thirty-second regiment to the border, if the troops make the trip south, was joyfully received by members of the Infantry Saturday.

Captain Hume has inaugurated a campaign in the interests of camp sanitation. Garbage incinerators have been constructed at the end of each company street. Better care of kitchens is urged. So far, Captain Hume said, the campaign has resulted in a general improvement in sanitary conditions in our camp.

More than 100 persons are treated daily in the infirmary. It was announced. Because of the variety of diseases treated members of the infirmary received much the same experience as that of a doctor in an infirmary hospital, Captain Hume said.

Among the visitors at the infirmary Saturday were Mr. and Mrs. O. Waugh of Owosso.

Saturday morning was occupied by Company H of Owosso, Thirty-third regiment, in taking the oath. The entire regiment was mustered in. Private Jennings Wishrope was on guard Friday night. Saturday night Fillinger Gule served in this capacity. The health of this company has been unusually good. Not a single sick report was announced Saturday. Mrs. Roy Smith of Owosso, visited the camp Saturday.

## State Sunday School Association.

Howell, July 12.—When the boys and girls of the Sunday schools of the state gather at the new state Sunday school association camp on Thompson's lake near here next month, they will find seven solid silver loving cups to be awarded them.

Three of the trophy cups are 15 inches high and will be awarded for the all-around championship of the girls, younger boys and older boys camps. They are the Goodrich trophy, the Big Brother trophy and the Warren trophy, respectively. The awarding of these cups will be according to a fixed standard point system arranged by Frederic Goodrich, Jr., physical director of the boys' camps. By this system boys and girls compete against others of their own ages giving each youngster an equal chance.

The other cups are for the tennis championships of the camps. The Sparta tennis trophy is for the younger boys camp; the Albion tennis trophy for the older boys; and another for the girls. The Pomeroy trophy will be awarded for educational activities of the older boys group.

These cups have all been donated by friends of the camp.

## British Patrol Boats Sunk.

# GERMAN U-BOAT REACHES U. S.

Deutschland Foils British Blockade in Stirring Triumph.

## BOBS UP OFF NORFOLK, VA.

International Questions Brought Up with Arrival of Merchant Submarine—U. S. Will Treat Diver as Merchant Ship—Great Britain Protests. Boat Is Without Armor.

Washington, July 10.—The U boat liner which passed through the Virginia capes will be treated by the United States government as a merchant ship.

The vessel will be permitted to discharge her cargo, to take on a cargo for the return voyage, and sufficient gasoline and other stores to enable her to reach home.

This program of the state department is based upon official reports that the German under-water boat is not armed with torpedoes and is not fitted with torpedo tubes. It also has been reported that she has no guns, but even if she has, and the claim should be advanced that they are intended for defensive purposes only, her status as a merchant ship will not be changed in the view of this government.

The British embassy is preparing to demand that the vessel be treated as a warship and required to leave American waters within twenty-four hours or interned.

The British contention proceeds on the assumption that a submarine is in character a war vessel, and that it would be an easy matter for such a craft to equip itself with guns and torpedoes from a small vessel waiting it at sea.

## Carries Big Cargo.

Norfolk, July 10.—Carrying a cargo of 1,000 tons of dyestuffs, a quantity of mail and a message from Emperor William to President Wilson, the much-heralded German submarine merchantman, the Deutschland, arrived at Norfolk at 1:45 in the morning after an uneventful journey from a German port.

Unarmed and manned by a crew in marine uniforms in charge of Captain Kairig, the submersible proceeded up the bay for Baltimore, where it is expected to dock. The cargo is assigned to A. Schumacher & Co. at Baltimore, and it is expected that a cargo of tonnage will be taken aboard there for shipment back to Germany.

Convoys by U. S. Cutter. The Deutschland was convoyed up the bay by the tug Thomas F. Timmins, with the coast guard cutter Onondaga, with Collector Norman Hamilton of this port on board, in her wake. The Deutschland was met at the capes on her arrival by the tug Timmins, which stood by until daylight, when the journey up the bay was started.

Schumacher & Co., the consignees, are the agents at Baltimore for the North German Lloyd Line.

Henry G. Hilken, head of the Baltimore office of the Lloyd line, said the submarine is an unarmed merchant vessel, carrying medicines and dyestuffs, and would enter at the custom house there Monday morning as such.

The Deutschland left a German port June 23. She is commanded by Captain Kairig and carries a crew of twenty-nine men. The submersible flew no flag until arriving in the bay, when a German merchant marine insignia was run up.

The visitors will be kept under surveillance, as a matter of neutrality precaution, until questions touching on her status under international law are settled.

## Expected at New York.

The arrival of the Deutschland had been heralded for the last month or more, and a week ago, according to an advertisement in a Baltimore Austrian newspaper, was said to be resting at the bottom of the Chesapeake.

First announcements from Germany said the diver would enter the port at New York. Its lobbying up any where along the Atlantic seaboard was therefore not unexpected.

Details of the great submersible's dimensions are lacking, but dispatches from Berlin have stated that the 390-foot length of the undersea merchantman exceeded all war purpose submarines in size and qualities of endurance.

Now I am in better health than I ever was and recommend your remedies to all my friends."—Mrs. LENA WYNN, 2812 E. O Street, Richmond, Va.

While Change of Life is a most critical period of a woman's existence, the annoying symptoms which accompany it may be controlled, and normal health restored by the timely use of Lydia E. Pinkham's Vegetable Compound.

Such warning symptoms are a sense of suffocation, hot flashes, headaches, backaches, dread of impending evil, timidity, sounds in the ears, palpitation of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness and inquietude, and dizziness.

For these abnormal conditions do not fail to take Lydia E. Pinkham's Vegetable Compound.
